MITHILA CHIRANJEEWA RANATHUNGA

Full name: Mithila Chiranjeewa Ranathunga Muniveera
Date of Birth: 19/02/2002
Gender: Male
NIC: 200205002849
Address: 143/B Sri Ariyawansha Mawatha, Molligoda, Wadduwa
Phone: 077 865 13 57
Email: mithilachiranjeewa2002@gmail.com

SUMMARY

Enthusiastic Undergraduate Software Engineer with strong skills in web and mobile application development using Laravel, PHP, MySQL, Next.js, Flutter, and Tailwind CSS. Passionate about backend development, database management, and creating user-friendly applications, with a solid foundation in problem-solving and modern software practices. Quick to learn, adaptable, and eager to contribute to innovative projects while continuously developing technical expertise.

WORK EXPERIENCE

GPS Installation for Public Transport Buses

- Successfully completed a project to mount and configure Global Positioning System (GPS) devices for passenger transport buses.
- Ensured accurate real-time tracking and monitoring of bus movements for improved efficiency and passenger safety.

Freelance / Client Projects of E-commerce Application Development

- Designed and developed e-commerce web applications for real-world clients, focusing on secure transactions, product management, and user-friendly interfaces.
- Utilized Laravel, Next.js, Tailwind CSS, PHP, MySQL, and Flutter to build scalable and responsive applications.
- Collaborated with clients to gather requirements, implement custom features, and ensure on-time delivery of solutions tailored to business needs.

EDUCATION

B.Sc. (Hons) in Software Engineering – Undergraduate
- Java Institute of Advanced Technology

Diploma in English
- Britishway English Academy

G.C.E. Advanced Level (A/L) Examination
- 3C Passes — District Rank: 192 (Technology Stream)

G.C.E. Ordinary Level (O/L) Examination
- Results: C7, B1, S1

ADDITIONAL INFORMATION

- **Languages**

Fluent in Sinhala and good in English, with written and verbal communication skills.

- **Communication Skills**

Able to interact effectively with clients and team members, gather requirements, and explain technical solutions clearly.

- **Real-World Client Experience**

Developed web and mobile applications for real clients, including e-commerce platforms and transport systems with GPS integration, delivering practical and timely solutions.

- **UI/UX Design**

Skilled in creating modern, user-friendly interfaces, ensuring responsive layouts and smooth user experiences tailored to client needs.

I am eager to contribute my skills and grow as a software engineer, and I welcome the opportunity to bring value to your organization
